

About Six Thousand Osteopathic Doctors Will Meet in Kirksville, Mo. at Their Great Osteopathic Convention Next Week, Aug. 4 to 8. They Will Also Celebrate Their Founder's 65th Birthday.

The city has been turned over to the Osteopaths and will feed them free at great barbecues of meats, and roasting ears and melons and all manner of good things. And the State Normal campus has been turned over to them. There will be possibly the greatest multitude ever assembled in that city. As the followers of Osteopathy which has revolutionized the entire medical system of healing arts and in spite of the bitterest of opposition from the American Medical Association, has planted itself in the front ranks in every part of the civilized world. They are expected to be there from every state and every clime. This vast multitude of the scholarship and leading advance thinkers of the world will be an epoch in the history of healing arts never before recorded.

"Osteopathy holds laurels for the student and for the practitioner, not equaled in my judgment, in any other field on earth. Osteopathy is the opportunity of an epoch."—Chicago Times-Herald.

Dr. Ira W. Collins, El Paso's prominent Osteopath-in-Chief of the Dr. A. T. Still Osteopathic Infirmary, will leave for Kirksville Saturday night, where he has been asked to demonstrate his manner of loosening vertebrae Osteopathically. He having been remarkably successful in handling diseases by his methods. It was at the Dr. A. T. Still Osteopathic Infirmary where he is physician-in-chief that all those blind and eye diseases of every description have been restored. And so many cases of liver and stomach troubles and Bright's disease, from all parts of this country. And dangerous mastoid abscesses that the surgeons have failed on. It being the most dangerous operation of any disease. You saw in The Herald how successful they were in the case of Mr. Filler and Miss McMurtly, and Mrs. Seanlan and others who certified they were cured while the specialists who stated in the Medical Journal they had coaxed others away from Dr. Collins and scared them into operations, testified that they died in ten hours. It is the same way with Appendicitis, those under Osteopathy at Dr. Still's Osteopathic Infirmary, all were restored to health, while those who were coaxed into operations either died or suffered afterwards. And the two thousand cases of female diseases had no deaths, while those under the knife have died by the hundreds. In ten years there will be no other method of healing.

Dr. A. T. Still Osteopathic Infirmary

201 West Missouri St., Cor. Missouri and El Paso Streets, El Paso, Texas.

Dr. Ira W. Collins, Physician in Chief; Dr. Amelia Burke, Dr. Grace Parker, Dr. Paul R. Collins, Dr. Anna Reznikov, Operators.

NEW STATION AT DOUGLAS FINISHED

All New Lacking to Make \$75,000 Structure Ready for Building of Track.

Douglas, Ariz., Aug. 2.—Except for installation of the new main line track directly north of the new \$75,000 E. P. & S. W. depot, the structure and the new yards adjacent to it are ready for service. The depot has been completed in all details, even to installation of the furniture. The new street railway line which will be operated whenever the depot is put in commission is now completed.

Flowing so rapidly at the depth of 70 feet that it was impossible to pump it dry in order to sink to the second and more fluent strata, the new well on the Hannigan farm, six miles northwest of Douglas, is giving forth 75 gallons of water per minute under steady pumping for several hours. The well is one those sunk by A. L. Enger, of the University of Arizona, is the Sulphur Springs. The present flow will be ample to irrigate 40 acres, but with a few feet more of depth, Mr. Enger is confident that a much larger flow would be developed. It is probable that a larger pump will be installed in order to complete the work.

Maria Espinosa, aged 17 years, who was shot and it was thought fatally wounded, her husband Juan Espinosa, aged 19, being charged with the shooting, has a bare chance for recovery. When informed of the change for the better in his wife's condition Espinosa, who is in the branch county jail, wept with joy.

Ed Sims, a negro, charged with smuggling opium, following his capture while crossing the line from Agua Prieta, declared to the local officers that there are more than a dozen "hop joints" in the city. "What would I want to bring yen sheen from Mexico for, when there are a dozen places in Douglas that I can get it?" the negro parried, when asked.

A. M. Williams, local inventor, who has previously perfected several flying machines, is now working on his fourth and improved model. The machine is a biplane and is almost completed. It will be ready for flight in a few days, possibly next week. V. L. Rodriguez, who recently completed a new model aeroplane, will shortly have his craft ready for air trials.

DAILY RECORD.

Building Permits.
To Pasqual Alvarez, to build an adobe dwelling at Florence and Ninth streets; estimated value, \$150.
To R. E. Massey, to make changes and alterations at 912 Mundy avenue; estimated value, \$150.

Deeds Filled.
North side Louisville between Myles and Park streets. A. J. Fullen to R. W. Wilmore, lots 56, 57, block 11, Altura park; consideration, \$225, July 10, 1913.
Mills map. Estate of J. P. Dieter to Joseph Zellman, lot 151, Mills map; consideration, \$8,500, July 18, 1913.
Southeast corner Memphis and Oro. C. W. Sharpe to Mrs. E. E. Cammack to J. D. Love, section 20, block 634, townsite of Sierra Blanca; consideration, \$10, July 31, 1913.

San Elizario grant, El Paso county.
R. C. Semple to S. C. A. Wiley, surveys 151, 152, 153, 154, 155 and 156, El Paso county; consideration, \$1, July 28, 1913.
Westlyn Heights. F. B. Hadlock and W. C. Porter to Mrs. M. G. White, lot 1, block 4, Westlyn Heights; consideration, \$400, August 1, 1913.
Southeast corner Manzana and Colorado. D. Lauricella and wife to F. D. Burke, lots 1, 2, 3, 4, block 52, East El Paso; consideration, \$1,000; July 28, 1913.
West side Mesa between Franklin and Mills. Charles Pomeroy and wife

Insane Man Cures His Physician of Epilepsy by Knocking Him Down

Dr. Ira W. Collins the Osteopath Was Called to Missouri and Iowa With Regard to Moving Some of the Insane to Kirksville, Mo., for Osteopathic Treatments. He Having Been Very Successful in Treating Insane While in Kirksville Before Coming to El Paso.

Moral! This Incident Illustrates the Fact, That With Some People, it Is the Same as With this Physician. They Have to Be Knocked Down Before They Have Sense Enough to Take Osteopathic Treatments. 8,000 Cases, Every Kind of Disease, With Only Loss of 8, Ought to Make Any Intelligent Person Wake Up and Take Notice. Ask People Who Have Tried It.

One of the physicians in Clarinda, Iowa, one of the cities where one of the asylums is located, having handled many insane patients, had been a sufferer for many years from Epilepsy; was one day handling a violent case when the patient suddenly struck him a terrible blow on the side of the head, which nearly killed him. He heard his neck snap and thought it must be broken at its base. It became so sore he could hardly move his head. Eruptive sores came out on neck and shoulders. After a few violent spells, the epilepsy never returned. These conditions are characteristic of all Osteopathic treatment. When a nerve is freed, it is same as straightening out a limb which has been held in one position too long. Before you straighten it out you feel no sensation. But after straightening and taking the pressure off the nerve, the limb stings and hurts as the blood restores the circulation. That is the same way in Rheumatism. The stagnant blood is irritating to the nerve after you free it and it becomes sore and seems worse. Just at the time when the Osteopath has succeeded in loosening it up and the patient thinks they should be well. That is why many get discouraged right at the point where Osteopathy has done the work, and they quit; then some one else gets the credit and the patient thinks the Osteopath made them worse. But you will notice that usually these cases could not have been cured by any other method. So it proves that when they have been treated by Osteopaths, that they get well in spite of these other methods which could not cure them before. And the fact that so many others who have been cured of all kind of diseases by Osteopathy have had these same experiences. They feel worse just before they get well. Often in cases of Epilepsy the spells are so frequent when you get the nerves loosened, that one spell follows another so much more rapidly than ever before. Because the stagnant blood is so irritating to the freed nerve. But as soon as the restored nerve is able to throw all the stagnant blood out of the walls of the stomach or whatever organ is causing the over-excitement of the pneumogastric nerve which causes the fit. The patient is well and stays well. And is not like all such cases who take bromides and other drugs to deaden the nerves, which only makes the spells farther apart and more deadly when they do return and death or insanity the result. Do you remember this case of Ben Powell here in El Paso, whose parents had taken him to 20 different specialists and they would only deaden the nerve with some drug and hold his parents up for a big fee, and then it would return worse than ever? We cured up Ben Powell and a lot more cases of Epilepsy, and his parents told all about it in The Herald. It is the same about all these Eye Troubles, Ear Troubles, Catarrh Troubles, Headaches, Throat and Lung Troubles. Stomachs and livers and kidneys and appendixes and female troubles and rheumatism and asthma and everything you can think of, and we sent the notary public around to them to let all these good people speak for themselves. For we have delivered the goods right here in El Paso, and all over New Mexico, Arizona and Texas, and elsewhere. But we have to keep on telling you about the work we are doing. For it is the same with some people as with this physician. You have to knock them down before they will wake up and take Osteopathy and get well like their neighbors.

Osteopathy Substantiated
BY THE
BEST PEOPLE
—OF—
EL PASO

This certifies that I, G. L. Hannan, am a notary public in and for El Paso County, State of Texas, and that I took the statements of the leading people of El Paso, who had been treated at the Dr. A. T. Still Osteopathic Infirmary, under Dr. Ira W. Collins, for nearly every disease you can think of, and they verified the fact that they were cured, and were enthusiastic in praise of the Osteopathic treatment.

G. L. HANNAN,
Subscribed and sworn to before me, this 26th day of October, A. D. 1910.
A. S. THURMOND,
Notary Public in and for El Paso County.

ASTHMA.
I took the statements of asthmatics who had been given up by physicians, and they are now well.

BLINDNESS.
I took the statement of a lady who had been afflicted with blindness, and others who had been treated for other eye troubles, and who can now see to read and are perfectly well.

FEMALE DISEASES.
I took the statements of ladies who had suffered with female diseases; they are now strong and well, and some of them had continued so for years, since taking treatment. They were all enthusiastic in its praise. No operations given in any instance. Tumors had been shed by several.

BRIGHT'S DISEASE.
I took statements of people who had Bright's Disease in their families, who had been given up by physicians and after treatment by Dr. Collins, were wonderfully cured.

RHEUMATISM.
I took the statements of those who had suffered with several different kinds of rheumatism, and they claim that they are now perfectly well and have never had it since—in one instance the patient had been treated eight years ago without having had a return of the disease.

DEAFNESS.
I took the statements of the deaf, who can now hear as well as anyone else.

PARALYSIS.
I took the statements of paralytics who can now use their limbs perfectly.

CATARRH.
I took the statements of catarrhal patients who had shed the adenoids, and some who had had large mastoid abscesses, and all were cured.

FITS.
I took the statements of those who had had fits, and they are now perfectly well and were loud in praises of the treatment.

CONSUMPTION.
I took the statements of consumptives and others formerly afflicted with throat trouble, and they are now perfectly well and had been for years.

LUNG FEVER.
Several people who had been cured of lung fever by Dr. Collins's treatment made the statement to me that after being given up to die they had been perfectly cured by this treatment.

GALL STONES AND LIVER TROUBLES.
I took statements of patients who had been cured of liver trouble and gall stones by Dr. Collins's treatment, after being considered past relief by physicians.

STOMACH TROUBLES; INDIGESTION.
I took the statement of those who had been suffering with liver, cramps and stomach troubles and indigestion, who say that they are now able to eat any kind of food and enjoy life.

BRIGHT'S DISEASE.
I took statements of people who had Bright's Disease in their families, who had been given up by physicians and after treatment by Dr. Collins, were wonderfully cured.

RHEUMATISM.
I took the statements of those who had suffered with several different kinds of rheumatism, and they claim that they are now perfectly well and have never had it since—in one instance the patient had been treated eight years ago without having had a return of the disease.

SPINAL MENINGITIS.
I took the statement of those formerly suffering with spinal meningitis, and they were loud in their praises of the treatment.

CHILDREN'S DISEASES.
I took the statement of mothers whose children were cured of all kinds of children's diseases, and they were enthusiastic in their praise of the Osteopathic treatment.

I took the statement of mothers whose children had suffered with spasms and who could not lift their little heads from their pillows, that are now strong and well.

TYPHOID FEVER.
I took the statements of those who had gone through typhoid fever, and all were loud in their praise of the treatment of Dr. Collins, which had cured them.

SCARLET FEVER.
I took the statement of mothers who had children cured of this dreaded disease by the Osteopathic treatment, and they were enthusiastic in its praise.

BLOOD POISONING AND OLD SORES.
I took the statement of those who had had blood poisoning ranging from nail in foot to old sores of several years' standing, and it was remarkable how well they recovered after trying all other kinds of remedies.

NEURALGIA AND HEADACHES.
I took the statements of those who had suffered with neuralgia in its worst form for years, and all kinds of headache, and they in each instance claimed to be cured.

APPENDICITIS AND ABSCESSES.
I took the statements of those who had been cured of appendicitis, and they were each cured. No operation in any instance. Some had abscesses which opened up and drained and healed nicely.

Think of those you have known who have been foolish enough to let a surgeon scare them into an operation. They are nearly all dead now. Why should you resort to surgery, which cannot cure as great a percent of diseases as Osteopathy can, and no danger from Osteopathy?

This is where we loosened the nerve in ovarian abscess and cured a bad case of blood poisoning. Read what Mr. and Mrs. Montgomery say about it:
Yes, I brought my wife to El Paso and placed her under Dr. Ira W. Collins, at the Still Osteopathic Infirmary.

When the other doctors had given her up to die with a large ovarian abscess, which they said would kill her with blood poisoning. The abscess left a cavity as large as your double fist.

The worst they said they had ever seen.
Dr. Collins freed the nerves to the kidney and the temperature went right down. Then he freed the nerves to the ovaries so they could drain themselves and get blood around them and it healed up that great abscess until my wife says she wishes every woman could know what Osteopathy can do for them when suffering with various female troubles.

"It has saved my life and I think it is the greatest blessing ever discovered." There are 27 others with female troubles taking now out of 112 patients, and they are all doing well.

There is every kind of trouble one can think of being treated here, blood poisoning, liver troubles, appendicitis, fits, eye troubles of every kind, lung troubles, throat troubles, rheumatism, and all kinds of asthma, paralysis of every kind, all kinds of diseases of little babies, spasms and indigestion.

The people they have cured are all over town and they say they only lose one patient out of a thousand, while the other doctors lose about 200 patients out of a thousand.

Everybody who takes of them seems smiling and happy and getting better, and speak a good word for them. Just think of the blind people they have cured that nobody else could, and it shows that they can cure anything else by getting the blood to circulate.

Mr. Elmer Montgomery.
Mrs. Sarah Montgomery.
We are now on Upson avenue, but our home is in Clifton, Arizona. There are many people taking treatment from Arizona, also New Mexico, Old Mexico and Southern Texas.
